

# REQUEST FOR EXPRESSION OF INTEREST (EOI): PROVISION OF MEDICAL AND MEDICAL EVACUATION SERVICES DURING THE OPERATIONS PHASE - UGANDA.

## REFERENCE NO. REQ – 00001173

East African Crude Oil Pipeline (EACOP) LTD invites experienced and reputable Ugandan companies or organizations to express their interest in the Provision of Medical Services and Medical Evacuation during Operation Phase in Uganda.

**Operation Overview:** The EACOP operation involves the operation of a buried and cross-border thermo-heated pipeline to transport crude oil from lake Albert area in Uganda to eastern coast of Uganda for export to international markets. The pipeline will run from Kabaale, Hoima District in Uganda to the Chongoleani peninsula in Tanga, Uganda. The length of the pipeline is 1,443 km, of which 296km will be in Uganda and 1,147 km in Uganda. In Uganda the pipeline will traverse two (2) regions which are Western and Central regions and in Uganda, eight (8) regions comprising of Kagera, Geita, Shinyanga, Tabora, Singida, Dodoma, Manyara and Tanga, 27 administrative district councils, and 231 villages.

### SCOPE OF THE SERVICE

The Service Provider shall provide comprehensive, integrated medical services to support EACOP across all designated worksites and operational areas in Uganda. The services shall include but not limited to;

- Emergency Medical Evacuation (MEDEVAC) services for all EACOP worksites and operational areas from evacuation point to receiving hospital:
  - » Provide evacuation from worksites to appropriate hospitals in Uganda.
  - » Provide evacuation from Uganda to designated international hubs.
  - » Provide 24/7 emergency medical response capability.
- Review and assessment of logistical providers and timelines for domestic and international medevacs, including an assessment of domestic road planning and management, availability of air-evacuation capabilities along the entire Right of Way.
- Development of a specific medical assistance solution that will enable the service provider to support coordination of Medical Evacuation Services according to a common operational procedure, including the development of an operation-wide medical evacuation plan (MEDEVAC).
- Implementation and management of medical facilities on all sites:
  - » Provision of medical supply chain management (drugs, medical consumables and equipment, laboratory diagnostics services, ambulance).
  - » Management of medical staff on all sites (medic / paramedic / ambulance driver).
  - » Provision of medical quality management services.
  - » Provision of occupational health services.
  - » Prevention and public health services.
  - » Provision of consultancy, medical training, medical protocol and plan, audits, drills and expertise abilities.
  - » Provision of telemedicine and electronic medical records.
