Project	EACOP – Jetty & Loading Out Facility Construction
Employer	BESIX Ballast Nedam Limited (BBN)
Work Location	Tanga Port to EACOP Jetty Project Location
Position Title	QC Piling Inspector
Reports To:	BBN Ltd. QAQC Manager
Employment Duration	February 2024 to April 2025
Job Type	Full Time

Purpose and scope of assignment.

Our company is seeking a highly experienced and competent QC Piling Inspector to oversee all quality control activities related to piling works for various civil engineering projects. The ideal candidate will have a strong background in pile driving and testing including PDA, static load test, tension test, lateral test etc. The successful candidate will be responsible for ensuring that all piling works are performed to the highest standard of quality, in accordance with project specifications and industry standards.

Job responsibilities

- Conduct inspections of piling works, ensuring compliance with project specifications and industry standards.
- Monitor pile driving and pile testing activities.
- Compiling and preparing pile driving records with construction and survey department and submit to Client.
- Conduct regular inspections of piling works, ensuring compliance with quality requirements and identifying any defects or issues that require corrective action.
- Coordinate with project engineers and contractors to ensure that all QC activities are properly documented and communicated.
- Participate in project meetings and provide regular reports to project management on QC activities and performance.
- Ensure compliance with all applicable health, safety, and environmental regulations.

Job Qualification, Experience and Skills

Applicants should possess the following:

- Tanzanian citizenship.
- Piling work experience is a must.

- A technical college degree or bachelor's degree in geotechnical or civil engineering.
- 5 years' experience in QC roles for civil engineering projects, with a focus on pile driving works.
- Able to work offshore conditions on piling barge during construction activities.
- Knowledge of relevant industry standards and regulations related to piling works.
- Excellent communication skills, with the ability to work effectively with project engineers, contractors, and other stakeholders.
- Ability to work under pressure and meet tight deadlines.
- Strong problem-solving and analytical skills.
- Ability to work independently and as part of a team.
- Knowledge of PDF and Microsoft Office applications.
- Excellent knowledge of written and spoken English is required.
- Rigorous and detail oriented.
- Ability to adhere to set procedures and policies.
- Time-oriented approach on handling queries and tasks.

Apply to:
