

REQUEST FOR EXPRESSION OF INTEREST FOR PROVISION OF MLBV-LLHT HYDROLOGY SERVICES

REFERENCE NO.: CPP-PROC-TZ-132-0131

China Petroleum Pipeline Engineering Co., Ltd. (hereinafter abbreviated as CPP) as Pipeline, Feederline & Above Ground Installation Contractor for the East African Crude Oil Pipeline (EACOP) Project invites experienced and reputable Contractors to express their interest in providing **MLBV-LLHT hydrology services** to the EACOP Project.

The EACOP Project involves the construction and operation of an underground and cross-border pipeline to transport crude oil for export to international markets. The pipeline will run from Kabaale, Hoima District in Uganda to the Chongoleani peninsula near Tanga in Tanzania. The length of the pipeline is 1,443 km, of which 1,147 km will be in Tanzania.

BRIEF DESCRIPTION OF THE SCOPE OF THE SERVICES:

- ♦ Amendment and update on the finished MLBV Hydrology Study Report for relocated MLBV-LLHT.
- ♦ To finish tidal and fluvial analysis, pluvial analysis and ground water analysis and designing of the flood protection measures and erosion control measures for locations (both unchanged and relocated) classified as at risk.
- ♦ Flood and erosion protection facilities shall restrain within the ROW and ATWS.
- ♦ To acquire all data needed in MLBV-LLHT Hydrology study and design.
- ♦ CONSULTANT shall undertake a surface water runoff assessment to verify the water volumes that require management at all MLBV-LLHTs and record the findings. The assessment shall define the catchment areas and the water volumes used for assessment.
- ♦ To conduct site survey and site data acquisition.
- ♦ The Consultant shall submit the completed design documents to CPP and EACOP for review and approval as per the schedule requirements approved by CPP.
- ♦ The Consultant shall modify the design documents according to CPP and EACOP comments until fully approved by CPP and EACOP.
- ♦ The Consultant shall revise and re-submit the design documents within 7 days after receiving CPP or EACOP comments.
- ♦ The Consultant shall participate in the relevant technical activities and meetings and provide supporting documents and report according to the requirements, and timely improve the design results according to the review opinions.
- ♦ After the signing of the contract, the Consultant shall complete all the construction detailed design drawings within 120 days and submit the results as the following milestones.
- ♦ The Consultant is responsible for developing design and specifications suitable for construction contract (to be carried out by others under a separate construction contract between the Employer and the selected contractor

after a tender process) in accordance with the Employer's Design Intent as described above.

- ♦ The detailed design involves the oil tank, process piping system, civil engineering.
- ♦ After the signing of the contract, the Consultant shall complete all the hydrology and design drawings within 60 calendar days and submit the results.
- ♦ The project manager or Chief Technical Manager shall have at least 10 years of experience in engineering design or project management and have served as the project manager for detailed design or basic design at least one hydrology project within 5 years.
- ♦ The Specialty Leader shall have at least 8 years of design experience in the hydrology specialty.

MINIMUM REQUIREMENTS:

Companies or organizations expressing their interest are invited to document their request with:

- Proof of registration with the business registration and licensing agency – BRELA
- Proof of registration with the Tanzania Revenue Authority (TRA) and Tax Clearance Certificate for the latest year available.
- Proof of registration/application to the EWURA Local Supplier Service Provider (LSSP) database at the time of submission of the response to this expression of interest is strongly recommended.
- Compliance with Petroleum (Local Content) Regulations, 2017, and Local Company definition for Tanzania.
- Fully filled Key personnel list with CV and Equipment list of production and inspection in requested format. (Blank is regarded as an unqualified item.)
- Similar supplying experience within the last three years in the requested format.
- Copy of certificates of ISO 9001, ISO 45001, ISO 14001, or equivalent of them.

Companies which have the ability, capacity, and resources to implement the activities listed above should express their interest by sending together with the documents stated in the above section through an email to **biddingbox@cpptz.com** (Max. Email Size: 20 MBs, all documents must be submitted in the **English language**) on or before **24:00 hours East African Time (EAT), on 15th February 2025**. **The subject of the email should be "EOI for CPP-PROC-TZ-132-0131-COMPANY NAME"**. CPP reserves the right not to consider companies that submit an **incorrect email subject and the incorrect format of Appendix**.

The **format** of the required documents and **relevant technical requirements** which are mentioned in Minimum Requirements should be **downloaded from EACOP's website**

(<https://eacop.com/opportunities-by-main-construction-contractors/china-petroleum-pipeline-engineering-co-ltd/>).

Note: CPP will review and assess the documents provided by companies that have expressed interest in accordance with this EOI and conduct evaluations based on internal criteria to determine which companies will be included in the list of pre-qualified companies. Only the pre-qualified companies will receive, by signing a Non-Disclosure Agreement (NDA), an invitation to bid as a continuation of the call for tender process. CPP reserves the right at its sole discretion to make the decision to select or reject a company and maintain its decision.
